

## DEPARTMENT OF SURGERY AT NYP/WEILL CORNELL MEDICAL CENTER

The Department of Surgery has a long tradition of surgical excellence and innovation. The Department of Surgery is organized in seven Divisions, which include: General Surgery; Oral & Maxillofacial Surgery and Dentistry; Pediatric Surgery; Plastic and Reconstructive Surgery; Kidney, Pancreas and Liver Transplantation; Trauma, Critical Care and Burns and Vascular and Endovascular Surgery. General Surgery, the largest division, is composed of seven sections: Bariatric and Minimally Invasive Surgery; Breast Surgery; Colorectal Surgery; Endocrine Surgery; GI Metabolic Surgery; Hepatobiliary Surgery and Surgical Oncology. We have a fully accredited General Surgery and Colon and Rectal Residency Program, and Minimally Invasive Surgery, Plastic and Reconstructive Surgery and Vascular Surgery Fellowships. Visit our website [WWW.CORNELLSURGERY.ORG](http://WWW.CORNELLSURGERY.ORG).

### FABRIZIO MICHELASSI, M.D., F.A.C.S.

Fabrizio Michelassi, M.D., F.A.C.S., is the Lewis Atterbury Stimson Professor of Surgery and Chairman of the Department of Surgery at Weill Cornell Medical College and Surgeon-in-Chief at the NewYork-Presbyterian Hospital/Weill Cornell Medical Center.

## NEWYORK-PRESBYTERIAN HOSPITAL/WEILL CORNELL MEDICAL CENTER,

located in New York City, is one of the leading academic medical centers in the world, comprising the teaching hospital NewYork-Presbyterian and Weill Cornell Medical College, the medical school of Cornell University. NewYork-Presbyterian/Weill Cornell provides state-of-the-art inpatient, ambulatory and preventive care in all areas of medicine, and is committed to excellence in patient care, education, research and community service. Our physician-scientists have been responsible for many medical and surgical advances and are engaged in cutting-edge research from bench to bedside, developing new treatments and prevention strategies. NewYork-Presbyterian has been ranked the #1 hospital in the New York metropolitan area since 1999, and is consistently ranked among the best academic medical institutions in the nation, according to *U.S. News & World Report*. Weill Cornell Medical College is the first U.S. medical college to offer a medical degree overseas and maintains a strong global presence in Austria, Brazil, Haiti, Tanzania, Turkey and Qatar.

Weill Cornell Medical College and the Department of Surgery at NewYork-Presbyterian Hospital/Weill Cornell Medical Center are proud to announce the appointment of

### Daniel Cherqui, M.D.

Chief, Hepatobiliary Surgery and Liver Transplantation

### THE DEPARTMENT OF SURGERY

at NewYork-Presbyterian Hospital/Weill Cornell Medical Center is pleased to announce the appointment of Daniel Cherqui, M.D. as Professor of Surgery and Chief of our newly-created section of Hepatobiliary Surgery and Liver Transplantation. This program expands New York-Presbyterian Hospital's Center for Liver Disease and Transplantation and provides this vital service to more patients needing liver transplantation.

An internationally-renowned and highly experienced liver surgeon, Dr. Cherqui has contributed major advances to the field, including pioneering work on minimally invasive liver surgery and he was the first to use laparoscopy in living donor liver transplantation. Dr. Cherqui has also contributed innovative techniques for major resections that require open abdominal surgery. This includes resection of large tumors, multi-stage resections and resections that bridge patients to liver transplantation.

Dr. Cherqui's expertise includes the comprehensive surgical management of diseases of the liver, pancreas and biliary tract, including management of primary and secondary liver cancer. Of note, in combination with other surgical, medical and radiation oncologists, Dr. Cherqui offers surgical treatment to patients with colorectal or endocrine cancers with synchronous liver metastases. Under Dr. Cherqui's leadership, the new hepatobiliary and liver transplant program at NYP/Weill Cornell provides patients with state-of-the-art, personalized care for their liver disease through a multidisciplinary approach.

### BACKGROUND

- ❖ Chief, General Surgery, Hopital Henri Mondor, Paris, 2006
- ❖ Professor of Surgery, Hopital Henri Mondor, Paris, 1996
- ❖ Associate Professor of Surgery, Hopital Henri Mondor, Paris, 1992
- ❖ Chief, Hepatobiliary Surgery and Liver Transplantation and Assistant Professor of Surgery, Hopital Henri Mondor, Paris, 1988

### RESEARCH

- ❖ Research focused on hepatobiliary-pancreatic cancers and liver transplantation
- ❖ 160 peer-reviewed publications and 44 book chapters and reviews
- ❖ Principle or Co- Principle Investigator in over 50 studies

### EDUCATION

- ❖ MD, University of Paris, 1980
- ❖ General Surgery Residency, Assistance Publique - Hopitaux de Paris, 1986
- ❖ Clinical Fellowship in Hepatobiliary Surgery and Liver Transplantation, Paul Brousse Hospital, Paris, 1987
- ❖ Research and Clinical Fellowship in Hepatobiliary Surgery and Liver Transplantation, University of Chicago, 1988
- ❖ Board Certified in General Surgery, France, 1988
- ❖ Master in Surgical Sciences Certificate, Academy of Paris, 1991
